Research Supervisor:
Alhassan Tijani Forgor,
Candidate of Science/PhD,
(People's Friendship University of
Russia)

5.02. Economics and Business

Supervisor's research interests

- Functioning of financial markets; Mechanisms for risk management and investment strategy formation; Issues of sustainable finance and ESG (environmental, social and governance) integration; Factors influencing investment activity; Factors contributing to economic development in different countries, with a special focus on developing economies; Issues of social inequality, poverty, access to education and health care as key factors of sustainable growth.
- Policies and strategies contributing to sustainable development at the national and international levels.

Study program highlights

The program would require collaborations with foreign researchers from universities and research centers, which allows postgraduate students to participate in international research projects, exchange experience and knowledge with world leaders in the field of economics. Regular joint seminars and conferences to strengthen international ties.

Supervisor's specific requirements

- Proficiency in statistical data analysis programs such as R, Stata, SPSS, or Python with data analysis libraries (Pandas, NumPy, SciPy) is essential.
- Fluency in English is essential, both for reading and analyzing scientific literature, and for preparing publications and participating in international conference.
- Experience in conducting independent research and writing scientific articles will be an advantage; Financial support.

Supervisor's main publications

Publications (Web of Science, Scopus, RSCI) in the last five years.
